General Comment

I would like to be able to attend one of your hearings, but none are beng held nearby. Living on the Eastern Shore of Virginia, most of us realize the importance of a healthy Chesapeake Bay. We realize that an unpolluted, healthy bay means jobs for watermen, a valuable seafood industry, recreatiion and education for our citizens, and healthy local food.

I am an educator as well as the president of our Eastern Shore Local Food Project. Speaking for members of our group, as well as the children and families I work with daily, I urge the EPA to enforce the strictest possible regulations to, finally, really clean up our precious Chesapeake Bay.
